

Heaven on Earth – © 2016 Kaufman & Perri

Pretty woman with a swing in her hips smiling back at me
Zac Brown on the box, been listening all day for free
Taste 'a homebrew whiskey in my hand, and two weeks off working on my tan
If this ain't heaven my friend least it's miles from the bitter end

There's more heaven, heaven on Earth
More ways to laugh than crying's worth
There's more heaven, heaven on earth
More ways to love than we can hurt
Yeah for what it's worth, this is heaven on Earth

I got a big story growing, fat and happy in my heart
All the work I done and the woman I loved so hard
Any time life plays us joke, we just throw that fish right off the boat
Smile and wet the line again cause were miles from the bitter end

CHORUS TO BRIDGE:

Lying on the sand
A spark from the touch of your hand
Best things in life ain't things at all
And walking loud ain't walking tall

This ain't a movie it's a slice of the goodness we get on earth
Waste your time or live your life for all that you think its worth
Lord I can wait for that for that angel band cause yeah I understand
That for what it's worth, this is heaven on Earth
Said for what it's worth, this is heaven on Earth
Go make it all it's worth, cause this is heaven on Earth

CHORUS 2X; TAGS
