

Going in for More – © 2022 Kaufman & Perri

Kind 'a woman falls in love at the drop of a hat falling off her head

Falls out again 'fore that hat hits the floor, that's you you're killing me

Still you're everything I wanna have every night, kind 'a torture ties me up just right

Just gotta be the one thing filling your mind, all in for the ride

(Going in for more) I'm going in for more (going in again) I'm going in again

Get you stuck on me party you can't leave

Habit you can't kick, make your mind up quick

(Going in for more) I'm going in for more (going in again) I'm going in again

Help you turn your eye from every other guy

Till I'm the one love you can never get enough of

What's your perfect date girl, your perfect night? Your favorite song, sweet lullaby?

Best glass a whiskey you ever had? Worst mistake didn't wind up bad?

Wild way to love you want at night, your perfect fix, one that keeps you high

I'm Green-lighting every wish in your eyes, all in for the ride

REPEAT CHORUS to BREAK

And with you I'm down to be a better man, clean up like a boss best as I can

You're so fire so hundred percent, all in for the ride

REPEAT CHORUS to OUTRO:

I'm going in for more, I'm going in again, I'm going in for more

Just baby tell me when
