

## Brother Iron Sister Steel – © 2023 Kaufman & Perri

She's got a tongue as sharp as her high heels

Painted nails her lips like a mine field

Make a strong man weak make him reel

Crush him down to his skin and bones

But I'm a freight train burnin' hot black coal

Shootin' steam up high wet a ridge pole

Shave my bald head clean with 'a lightnin' bolt

Can't no lady crush my soul

Brother iron, sister steel

Wrong side 'a the nickel, same side 'a the deal

Brother iron, sister steel

Rock meets a hard place, devil takes the wheel

She fills her party dress like it's war paint

Plays the room the crowd till they can't wait

Takes an iron touch to make her...real estate

Pin her down hold her close

I got that blue steel in my eyes

Want her bad as the dark wants the sunrise

Hard as a railroad spike on the line

Bring it on that lady love
